

Download the latest ZIP from GitHub

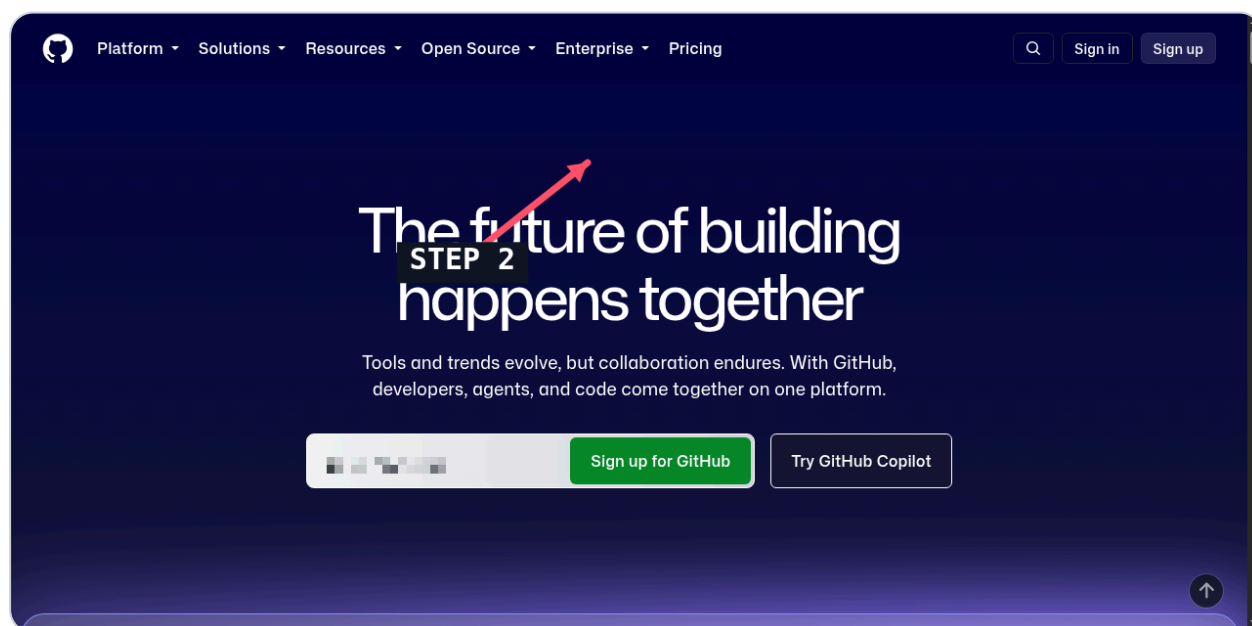

01 Go to github.com

Open your browser and go to <https://github.com/>.

Screenshot unavailable under security terms for this page.

02 Search for hctorfrs17-tech/ClickTrail

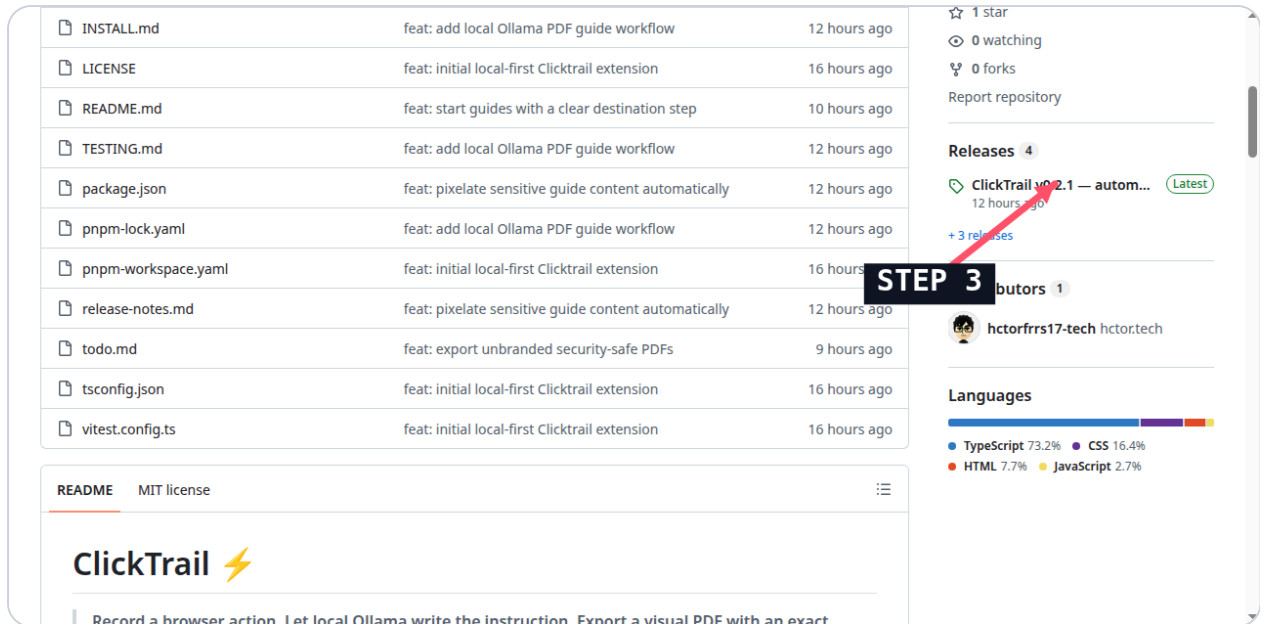

Use GitHub search to find the public ClickTrail repository.

03

Open the latest release

In the repository sidebar, select the latest release.

The screenshot shows the GitHub repository sidebar for 'ClickTrail'. The 'Releases' section is expanded, showing a list of releases. The latest release, 'ClickTrail v0.2.1', is highlighted with a red arrow and a 'Latest' badge. A black box with the text 'STEP 3' is overlaid on the image.

File	Description	Time

Download the latest ZIP file

In Assets, select clicktrail-chrome-extension-v0.2.1.zip to download it.

The screenshot shows the GitHub repository 'Assets' section. A red arrow points to the file 'clicktrail-chrome-extension-v0.2.1.zip'. A black box with the text 'STEP 4' is overlaid on the image.

Before recording

1. Install Ollama and run `ollama pull gemma3:1b`.
2. Start Ollama with `OLLAMA_ORIGINS=chrome-extension://*` configured for Chrome extension access.
3. Extract the ZIP, open `chrome://extensions`, enable **Developer mode**, and select **Load unpacked** on the folder containing `manifest.json`.

Chrome cannot load the ZIP directly; extract it first. ClickTrail works entirely on the computer where Ollama runs.
